

## EXHIBITION QUARTER, BOWEN HILLS

**WHAT:** PROJECT UPDATE 3 - COMMUNITY CONSTRUCTION INFORMATION

**WHEN:** ISSUED WEEK COMMENCEING – **20<sup>th</sup> March 2023**

**WHERE:** BRISBANE SHOWGROUNDS PRECINCT

---

To our valued community,

Construction of Exhibition Quarter is progressing well. Civil works continue, and we expect these works to be completed by April 2023. The next phase of construction will require the use of two piling rigs.

### **What to expect?**

These piling rigs will be arriving on site late March, over a one-week period, and delivered to site on a semi-trailer in the morning, to minimise the impact on traffic in the local area.

The introduction of these piling rigs will not change or increase the construction impacts onsite. The piling rigs are onsite for five weeks and will then be removed.

Concrete works will also commence, and you will notice concrete trucks travelling to and from site daily. This vehicle movement will continue throughout construction.

We will continue to do everything possible to minimise any inconvenience and we thank you for your patience while we deliver this exciting new project to Brisbane Showgrounds.

If you have any further questions about the development or the broader precinct, please do not hesitate to contact Shannon Volp, Stakeholder and Community Engagement Manager, Lendlease Development.

For any site specific or operational questions, please contact to Mario Crismani, Construction Manager, Hutchinson Builders.

Yours sincerely,
